

## ENVIRONMENTAL POLICY

Spirit recognises its environmental responsibilities and has implemented responsible environmental practices designed to ensure compliance with regulatory & legal requirements.

The directors & senior managers are committed to the ongoing identification of activities and processes that have the potential to cause adverse environmental impacts & to provide the resources, awareness & training required to minimise the risk.

Special emphasis is placed on monitoring & measuring discharges & emissions, waste minimisation and the correct categorisation & handling of potentially harmful chemical & solid waste streams.

Signed:

A handwritten signature in black ink, appearing to read "S. Driver", written over a large, light-colored circular scribble.

Steve Driver  
Managing Director
